

# Why are so many hip companies turning to West Memphis?

The simple answer: A well-trained workforce, thanks to West Memphis' **Workforce Training Center at Mid-South Community College**.

The Center features an advanced, biomedical machining facility with an expert staff that trains students in state-of-the-art technology, preparing them for jobs in the biomedical field. No wonder the Workforce Training Center graduates numerous students directly into jobs with Memphis-based biomedical companies each semester.

**Looking to keep your biomedical business on the cutting edge?** Turn to a town with the talented workforce and the cutting edge training facilities. **Turn to West Memphis.**

The Workforce Training Center machining facility features technology learning in:

- Swiss Turn
- EDM
- Robo Drills
- Muti-Axis Lathes and Mills
- Inspection & Testing
- Finishing

Plus, a wide range of control panels including HAAS, Mitsubishi and FANUC.
