

Frederick, Maryland's Bioscience Advantage

Advantages

Business Friendly Environment

Frederick, the Northern anchor of the 270 Technology Corridor, is home to more than 75 bioscience companies conducting biopharmaceutical discovery, developing new devices, diagnostics and research tools, and breaking new ground in bioinformatics. Frederick has the second largest biosciences cluster in the state of Maryland. The Bioscience industry enjoys Frederick's low tax structure, no business personal property tax, fast track permitting assistance and lower development costs. Start-up companies also benefit from Frederick's incubator, Frederick Innovative Technology Center, Inc.

Strategic Location

Frederick's location within the state of Maryland enables access to one-third of the U.S. population. Frederick is located within an hour of two metropolitan cities, Washington DC and Baltimore MD. This proximity offers direct access to federal government agencies, national and international associations and embassies to assist with international trade.

Excellent Transportation Network

Frederick boasts a easy access to a comprehensive transportation network including highway, airport, rail and port resources. Three major airports are located an hour from Frederick; Baltimore Washington Thurgood International, Ronald Reagan National and Dulles International. Locally, Frederick Municipal Airport provides business and corporate air service and is the third most active airport in the state.

Skilled Workforce and Educational System

Frederick is home to a well-educated, highly skilled workforce. In fact, Forbes.com ranked the Frederick-Bethesda Corridor the 2nd smartest city in the U.S. Frederick continues to receive national recognition for their public school system. Frederick is also recognized for their top quality higher education facilities including Mount St. Mary's University, Hood College, University of Maryland-College Park and Frederick Community College. Majors and Graduate Programs include: Biomedical Science, Environmental Biology, Chemistry and Biology and Pre-Med Studies.

Recent New & Expanded Bioscience Projects

- **Fort Detrick National Interagency Biodefense Campus**
New laboratories and office for Interagency Biodefense R&D
\$1.3 billion in total capital investment
8,460 existing employees and up to 1,400 jobs
- **NCI@Riverside Research Park**
NCI-Frederick's Advanced
330,000 SF
200 new jobs bringing total employment to 2,000+
- **MedImmune, Inc**
Manufacturing plant expansion
\$250 million in capital investment
397,000 SF
200 new jobs bringing total employment to 450
- **Lonza Bioscience Walkersville, Inc**
Expansion of cell production and class A office space
\$26 million in capital investment
44,000 SF
80 additional employees bringing total employment to 480
- **Life Technologies**
Expansion of life sciences manufacturing distribution center
\$5M+ in capital investment
13,400 SF
21-50 new jobs
- **Charles River Labs**
Relocation and expansion of vivarium facilities
53,000 SF
60 new employees
- **Akoni Biosystems**
Expansion of microarray based systems and development facility
11,000 SF
\$1M in capital investment
- **U.S. Department of Agriculture**
Addition of new agriculture research service facility on Fort Detrick campus

FREDERICK, MARYLAND

INNOVATION Creativity OPPORTUNITY

- Fort Detrick Business Development Office
- Technology Opportunities
- Frederick Innovative Technology Center
- Technology Transfer Initiative
- Entrepreneur Support Network
- Highly Educated Workforce

- Strategic Location in Bioscience Corridor
- Over 60 Bioscience Companies
- Home to Fort Detrick and NCI
