

Houston's Greenspoint District - Strategic Position, Global Connection

The Greenspoint District is a business improvement district located 15 miles north of downtown Houston and minutes from Bush Intercontinental Airport and the Port of Houston. This prime location makes the Greenspoint District ideal for companies conducting business locally and around the globe.

The Greenspoint District is home to global leaders in oil and gas, manufacturing, distribution, machinery, technology and food industries. The District benefits from its location as one of the region's key energy corridors containing more than 100 energy-related businesses. Top companies take advantage of superior utilities and broadband infrastructure network in Greenspoint.

We understand the needs of business and can help facilitate your move by offering information on planning, incentives and relocation services. Contact us today to learn how we can help you start or grow your business in Greenspoint.

Cultivating Innovation through Advanced Technology

Greenspoint *Houston, TX*

Dynamic Houston Business District Offering:

- Diverse, redundant access to telecom
- Inexpensive, reliable power
- Supportive entrepreneurial culture
- Available, skilled workforce

The Houston region boasts a strong information technology infrastructure, an aggressive plan to grow its tech foundations and a workforce ready to meet the ever-changing challenges of advanced technology. The Greenspoint District, located at the crossroads of Interstate 45 and the North Sam Houston Parkway, is helping companies tap into the many resources available for new and emerging technologies.

A deregulated energy market gives Houston highly reliable service at competitive rates. Customers can choose a provider and negotiate rates based on their needs. To learn more, visit www.powertochoose.org.

Houston's Greenspoint District is literally the crossroads of the region's fiber optic infrastructure. More than a dozen long haul and last mile carriers have available fiber optic cable in Greenspoint as illustrated in the area map below.

Data Foundry is building a 350,000 square-foot data center campus in Greenspoint to expand its presence and capabilities to meet the demands of Houston customers. The Austin-based company will offer wholesale and retail data center space at the new site, as well as provide internet connection services.
