

# Education & Healthcare

## Delaware: Where universities, researchers and hospitals drive innovation and shape the economy.

As one of the nation's prominent leaders in knowledge creation and research and development, it's no surprise that Delaware is home to strong education and healthcare industry clusters. Delaware's expertise in research and development is supported by the collaborations of its academic institutions, health systems and private and public partners – not to mention its top-tier workforce of professors, engineers, scientists, physicians and more.

Delaware is at the frontline of health and technology innovation. The University of Delaware boasts the 272-acre Science, Technology and Advanced Research (STAR) Campus. The STAR Campus brings together basic and applied research, academics and innovative business enterprises, including Fortune 500 companies, in one location.

And the state's dynamic health systems advance the future of healthcare, from ChristianaCare's Gene Editing Institute to the Dan and Susan Katzin Diagnostic and Research PET/MRI Center at Nemours Children's Health.

"The smallness of Delaware actually makes for easier partnerships and a unity of focus when it matters most. People and businesses want to come here because they see a really thoughtful talent pool that is loyal to the community they're in and want to be successful."

– **Tony Allen, Ph.D.**  
President  
Delaware State University

## Key Facts

1%

Delaware's largest health system, ChristianaCare, ranks in the top 1% of all U.S. hospitals, according to Healthgrades.

Delaware boasts a robust network of technical education, including college, vocational training, trade and certificate programs.

## Why Delaware?

“Strong partnerships allow us to work together to train the next generation of innovative healthcare leaders. A huge advantage we have in Delaware is that students get to engage with leaders throughout the state from the very beginning of their clinical training.”

– **Janice E. Nevin, M.D., MPH**  
President and CEO  
ChristianaCare

“Our mission is to provide a high-quality workforce for local business and industry.”

– **Mark Brainard, J.D.**  
President  
Delaware Technical Community College
